A full day in the Park lies ahead of us. Except for the rainy season, Etosha's animals are depending on artificial waterholes and natural springs. Explore the various waterholes along this enormous saltpan, which is called the "great white place of dry water" in a local language. Lunch stop at one of the rest camps (lunch excluded). Encounter the big variety of wildlife in the Park during the course of the morning. More than 114 mammals species are found in the Park, several of them are rare and endangered like the black rhino and the black faced impala. You have a great chance of seeing some of the bigger mammals, like elephant and rhino and of course a highlight in any safari, the predators.
